

Have you ever considered becoming a foster parent?

# Métis Family Services is recruiting *Métis* caregivers!

## What does it take to foster a child?

- » Love and patience
- » A safe, stable home environment
  - » Good communication and problem solving skills
  - » Openness to family and cultural connection
- » The desire to work as part of a child's support team

## Who can become a caregiver?

Caregiving families don't all look the same. You can rent or own, you can be single or married, and you can have your own biological kids or be first time parents.

What you do need is the desire to provide care and stability to Métis children who deserve a safe, loving, and temporary home.

## What do we offer?

- » In-depth and ongoing training
  - » Support and mentorship
- » Family care payments to cover the cost of having a child in your home
